SUPPLEMENTARY INFORMATION: Presidential Policy Directive 8 (PPD-8: National Preparedness), issued on March 30, 2011, establishes a National Preparedness Goal (NPG) that identifies the core capabilities necessary for preparedness and a National Preparedness System (NPS) which guides activities to enable the Nation to achieve the NPG. The NPS allows the Nation to track the progress of our ability to build and improve the capabilities necessary to prevent, protect against, mitigate the effects of, respond to, and recover from those threats that pose the greatest risk to the security of the Nation.

The NPS provides an integrated approach to preparedness that can be implemented and measured at all levels of government. This system is an all-of-Nation and whole community approach to preparedness, from neighborhood organizations to civic groups and private businesses. It contains a methodical approach integrated across the preparedness cycle and links together programs and requirements into a comprehensive system, driving rational decision-making and allowing for a direct and defensible assessment of progress against clearly defined objectives.

The NPS is based on a consistent methodology for assessing the threats and hazards facing a given jurisdiction. The findings of the assessment drive planning factors and all other components of the preparedness cycle including resource requirements,

existing capabilities and capability gaps, driving investments to close those gaps, making and validating improvements in capabilities through training and exercising, and continually assessing progress.

Section 648(b)(1) of the Post-Katrina Emergency Management Reform Act of 2006 (6 U.S.C. 748(b)(1)) also provides for these exercises and states the Administrator “shall carry out a national exercise program to test and evaluate the national preparedness goal, National Incident Management System, National Response, and other related plans and strategies.” The Homeland Security Exercise and Evaluation Program (HSEEP) provides the program structure, multi-year planning system, tools, and guidance necessary for entities to build and sustain exercise programs that enhance homeland security capabilities, and ultimately, preparedness. The HSEEP After Action Report Improvement, Integrated Preparedness Plan, and National Exercise Program Support Request Forms provide the standardized methods for reporting the results of exercises, identifying exercise program priorities, and submitting exercise nominations necessary to validate national preparedness capabilities.
